In order that works can be carried out safely, road closures and diversions have been required.

Where possible, these works will be done overnight between 8pm and 6am to minimise disruption.

Lane closures are being used at Kingston Roundabout in order to ensure a safe environment for the construction workforce.

Temporary widening of the road and the installation of crash barriers will be in place to minimise disruption to drivers.

As of 22nd September, H9 Groveway will be closed 24hrs to allow the installation of the underpass alongside key utility diversions.

Working on the new A421 section will be behind temporary crash barriers, allowing the existing A421 to still be used.

Traffic will be use the new section of A421 is complete, and the improvement work will switch over to the existing carriageway until the job is complete.

Full details of all diversions and closures are listed on the Council’s website at http://www.milton-keynes.gov.uk/pinchpoint
