

Milton Keynes Early Years Training

Core Statutory Training – staying compliant with Ofsted and childcare business needs

Core courses are an essential way of ensuring that practitioners are up to date with current practice. Courses are designed to update your knowledge, awareness and develop your skills.

- Many courses are renewable every 3 years and some courses need updating on a regular basis to ensure compliance with Ofsted and welfare requirements.
- These courses are those considered either essential or containing the information that underpins the welfare requirements of the Early Years Foundation Stage (EYFS).
- All staff will need up to update certificates that are appropriate to EYFS requirements.

Recommended List

All training is listed in alphabetical order. Please contact the provider direct to book. Training is either classroom based or online provision. Costs vary depending on delivery and content.

*free packs are available through eybusinesssupport@milton-keynes.gov.uk
