

**CAPIAN WALK, REDWAY FOOTBRIDGE DECK REFURBISHMENT 2019 UPDATE**

Capian Walk footbridge is located to the West of Milton Keynes spanning the H4 Danstead Way. It carries the redway/footpath between Two Mile Ash and Great Holm and is a busy thoroughfare especially for school pupils of all ages. We therefore planned to carry out our work on this bridge when it is least used in the school summer holidays. We realise that this may cause an inconvenience but the works are a necessity to extend the useful life of the bridge.

### What stage are the works at?

Our sub-contractors are gearing up for work and will be resurfacing the bridge deck Wednesday 20<sup>th</sup> February due to the upturn in weather conditions. Due to the uncertainty of temperatures this week and it is now once again forecast to be fine the finished surface will be applied. We will be on site completing some minor tasks after the resurfacing is complete.

### How will the works affect road users & pedestrians?

The bridge will be closed on 20<sup>th</sup> February but will be reopened the same day once the asphalt has been rolled.

We understand that there will be an inconvenience for footway / cycleway users but we need to utilise the warmer conditions this week to complete the task and once again taking the opportunity to minimise risk during school holidays.
