The Denbigh Alliance has a track record of delivering academic success in subjects which offers students a real currency to progress into higher education or employment. We consistently outperform the Milton Keynes and national averages in terms of the results our students achieve. This academic success is built on the supportive, well-disciplined and dynamic learning environment we provide, which enables our students to focus on their studies. We believe that for a School to succeed there needs to be a genuine spirit of partnership between students, the School and parents.

We are a Teaching School, Maths Hub and SCITT and amongst the best in the country in terms of raising standards, both within our Trust and in the schools that we support.
