It might be helpful to start considering some of the issues that would need to be resolved:

1. Organisation's capacity and resources to manage asset/ service? What is the view of your financial advisers?
2. Would anyone need to monitor the transferred asset/ service?
3. Would the transfer have an affect on other services?
4. Is there an existing contract/lease in place?
5. What are the running costs of the service?
6. Are there any implications for costs or public liability insurance?
7. Do the local community support the request?
8. Are there implications for staff transfers?
