

# Book mouse craft

Create this cute animal from an old book

## You will need:

Old book, about 150 pages long  
Glue  
Googly eyes / buttons  
Cord or ribbon  
Patience!

1. Choose an old book you no longer want.
2. Tear out the last couple of pages to use later as ears and tail.
3. Ignore the front cover, start with the first page and fold the right hand corner toward the spine to create a right triangle. Be careful to line up the edge of the page with the spine edge in a straight line.
4. Then fold the whole page horizontally in half into the spine, and press down the edge of the fold well.
5. Repeat the same process on the next page, and then continue for the whole book.
6. Trim off the front and back covers if desired, or create a scene for your mouse to sit on.
7. Create ears and whiskers for the torn out pages, and glue on.
8. Glue on googly eyes, a button for a nose, a piece of cord or ribbon for a tail.
