

How to make a plastic bottle lid mosaic

Simple but effective way to create an amazing picture

You will need:

- Selection of plastic bottle top ids
- Glue
- Piece of cardboard
- Scissors

1. **Collect.** Gather together lots of plastic bottle top lids in as many colours as you can find.
2. **Design.** Decide what image you would like to create that includes the colours of your bottle top lids. Design your own or find a picture to copy. Decide how big you want your finished picture to be.
3. **Background.** Use a piece of cardboard background. Sketch on an outline of the image you have chosen.
4. **Glue.** Apply glue to a small section of your cardboard background and stick on the plastic bottle lids. Slowly work across your design to build up the image.
5. **Amazing!** Stand back and admire your creation!
