

# NOTICE OF PROPOSAL

## THE COUNCIL OF THE BOROUGH OF MILTON KEYNES (VARIOUS ROADS AND OFF-STREET CAR PARKS IN MILTON KEYNES) (ELECTRIC VEHICLE PARKING PLACES) ORDER 2020

**NOTICE IS HEREBY GIVEN** that the Council of the Borough of Milton Keynes proposes to make the above Traffic Regulation Order under Sections 1(1), 2(1) and (2), 4(2) and (3), 45, 46, 49, 53 and Part IV of Schedule 9 of the Road Traffic Regulation Act 1984, to introduce Electric Vehicle charging hubs for residents and businesses, incorporating fast and rapid charging.

Milton Keynes Council was awarded a Go Ultra Low City Status, one of four UK Cities and received funding from OLEV (Office for Low Emission Vehicles) to help continue roll of charging infrastructure to help support the uptake of electric vehicles.

The purpose of the electric vehicle charging hubs is to provide parking facilities for residents and employees of local businesses without off-street parking to charge their electric vehicles within walking distance of their homes/place of work.

The general effect of the Order will be to restrict parking to allow electric vehicles to park in a designated electric vehicle parking place in order to charge their vehicle. The parking places will be operational at all times and each parking place will be marked out and clearly signed:
