

Litter audit sheet

Keep a log of what litter you find

Record how much rubbish you find by placing a tick in the box for each item.

At the end of your survey count up all of the ticks to see which item was the most littered.

Who do you think is dropping the litter?

Item type	Tick how many you find	Total
Crisp packets 		
Sweet wrappers 		
Cigarette butts 		
Plastic bottles 		
Drinks cans 		
Dog poo 	Just record this - do not touch!	
Other - write down what else you find		

Add up the total column to find how many pieces of litter you found: _
