**Your ref:** 21/00999/OUTEIS

Dear Ms Verdegem

## **Hybrid Planning Application for Milton Keynes East Urban Extension (Ref: 21/00999/OUTEIS) - Further Submission**

On behalf of our client, St James Group Limited ('St James'), please find enclosed revised information in respect of the hybrid planning application at Milton Keynes East 21/00999/OUTEIS. This submission is intended to revise the application, including some plan substitutions to address minor changes that have arisen through consultation and through the continued design development and evolution of the scheme.

The submission pack comprises the following documents:

- 1 This covering letter;
- 2 Revised and/or additional application drawings, including;
  - a Revised parameter plans (outline element)
  - b Revised and/or additional detailed drawings (detailed element) to be substituted and/or added under the collective reference MKE-Dwgs-Plg-Rev.2. (n.b. some drawings are also identified for withdrawal where they no longer relate to the highway layout now proposed)
- 3 Design and Access Statement Addendum ('DAS Addendum') prepared by JTP;
- 4 Planning Statement Addendum, prepared by Lichfields;
- 5 Revised Affordable Housing Statement, prepared by St James;
- 6 Environmental Statement Addendum ('ES Addendum'), including revised/supplemental information on Drainage Strategy, Transport, Noise, Air Quality and Archaeology;
- 7 Statement of Community involvement Addendum, prepared by Lichfields and St James; and
- 8 Revised s106 Heads of Terms, prepared by Lichfields and St James

Appendix 1 to this letter provides a schedule of plan and document substitutions contained as part of this submission, setting out clearly where plans submitted are either additional and/or supersede an earlier plan revision, or are being withdrawn from the application. Appendix 2 to this provides a full revised schedule of application drawings for consideration (and following the above substitutions). We trust these schedules make clear what plans and proposals now form part of the application for consideration.

This submission includes numerous changes and amendments to the application, but all are considered relatively minor in the context of the application and do not alter the nature of the development proposed. The principle amendment is related to the proposed Tongwell Street arrangement including removal of vehicular access to Carleton Gate and retention of both northbound and southbound running along the length of Tongwell Street.

In addition, within the Planning Statement Addendum a schedule is included containing the applicant's response to the range of issues and themes which have been raised through the formal consultation on the planning application. We are continuing to discuss several matters with statutory consultees in order to understand and resolve objections. Where further response, information or comment on those statutory consultation responses is necessary and merited, we will share these with MKC under separate cover and at a later date.

We trust the enclosed is sufficient for your consideration, but should you have any questions, please do not hesitate to contact me.

Yours sincerely

**Martin Taylor**  
Planning Director
