Overall Total Supply

Total annual availability- all areas																						
All areas			Various						1278	974	1501	2062	2414	3733	3381	3149	3182	3059	3491	3202	4543	35969

* The 2950 dwellings post 2021 comprises of completion rates of 650, 650, 600, 550 and 500 from 2021 to 2026

Sites highlighted orange have uncertain availability. No dwellings assumed to be completed in first 5 years. All moved back to second or third 5 year period as per SHLAA methodology. Will be kept under review in annual monitoring update.

Figures in year 2014/2015 (the first in the second 5 year period) are artificailly high due to the inclusion of various sites with uncerain availability. Completions of these sites will be kept under review and reported annually.

NYS- Not yet started

UNCON- Under construction

DEVUNITS- Total units in the scheme, including those already completed

COMP- Total units already completed. Not included in assessment of avialability

CMK 'other sites' comprises of:
