

Street Name Plates

Replacement Programme 2022-2023

Starting in summer 2022, we will be replacing the missing, damaged or faded street name plates as listed below. This list has been compiled following site visits by highways officers so that the name plates most in need of repairs or new covers are done first.

Please note that these roads may have several street name plates situated on them, only the ones that need replacing or repairing are included in this list.

There is a 'waiting list' of additional street name plates that have been reported to us and require some attention that may be done later in the year if budget is available.
