

Daniel Ayaz Manifesto

To inspire young people to get their voice heard I would make a speech about putting your ideas to action before someone else steals it. Some young people get effected by shyness or they get embaressed so they can't really talk to people that well. I think I would make a good MKYC representative because I have a lot of experience when it comes to sharing ideas and reading thing out loud. To make balance in my time I will ask the school council to let the MKYC representatives to slip 1-2 lessons or cut some lessons to attend meeting and other activities.

To inspire young people to get their voice heard I would do something to encourage them to say their ideas before someone steals them. I think some people get effected by shyness and embarressment so they don't have the courage to communicate with others. I think I would make a good Milton Keynes Youth Council representative.
