To make sure everyone has the best experience,
always follow all the **'golden rules'** below:

- Hold activities in public spaces and never in people's homes
- If you need to gather personal information, explain why it's needed and keep it secure
- Create and clearly explain activity rules and safety
- Respect other people's personal space
- Keep it friendly – remember you're the organiser
- Treat each member of the group with dignity and respect
- Always seek permission before taking pictures
