

Stantonbury Neighbourhood Plan, Consultation responses

Milton Keynes Council (Housing)

c/o Julia Banham

Milton Keynes (Housing)

With regards to policies SNP14, SNP16 & SNP17, the Housing service at MKC are in support of the alternatives that have been provided and would not want to remove the policies entirely.

The previous text was invariably too defined but the alternatives allow for the plan to be more flexible and, crucially, meet demand at the time of development. This flexibility will allow for mixed communities and local residents to have move on options in their local community. By narrowing the sizes acceptable to 2 & 3 bedrooms homes some local people may be forced to move out of their local area when their circumstances change.

It is imperative that all local areas of MK have a similar proportion of affordable housing and this can only be managed by making all local plans and local development be in accordance with Plan:MK.
