

Castlethorpe Neighbourhood Plan, Reg 16 consultation responses

Network Rail

c/o Diane Clarke

Town Planning Technician NW&C

Network Rail

Network Rail is a statutory consultee for any planning applications within 10 metres of relevant railway land (as the Rail Infrastructure Managers for the railway, set out in Article 16 of the Development Management Procedure Order) and for any development likely to result in a material increase in the volume or a material change in the character of traffic using a level crossing over a railway (as the Rail Network Operators, set out in Schedule 4 (J) of the Development Management Procedure Order).

Network Rail is also a statutory undertaker responsible for maintaining and operating the railway infrastructure and associated estate. It owns, operates and develops the main rail network. Network Rail aims to protect and enhance the railway infrastructure, therefore any proposed development which is in close proximity to the railway line or could potentially affect Network Rail's specific land interests will need to be carefully considered.

Developments in the neighbourhood area should be notified to Network Rail to ensure that:

- (a) Access points / rights of way belonging to Network Rail are not impacted by developments within the area.
- (b) That any proposal does not impact upon the railway infrastructure / Network Rail land e.g.
 - Drainage works / water features
 - Encroachment of land or air-space
 - Excavation works
 - Siting of structures/buildings less than 2m from the Network Rail boundary / Party Wall Act issues
 - Lighting impacting upon train drivers' ability to perceive signals
 - Landscaping that could impact upon overhead lines or Network Rail boundary treatments
 - Any piling works
 - Any scaffolding works
 - Any public open spaces and proposals where minors and young children may be likely to use a site which could result in trespass upon the railway (which we would remind the council is a criminal offence under s55 British Transport Commission Act 1949)
 - Any use of crane or plant
 - Any fencing works
 - Any demolition works
 - Any hard standing areas

For any proposal adjacent to the railway, Network Rail would request that a developer constructs (at their own expense) a suitable steel palisade trespass proof fence of at least 1.8m in height.

All initial proposals and plans should be flagged up to the Network Rail Town Planning
