

Milton Keynes Council Schools Split Site Criteria 2022/23

This document sets out the funding criteria for schools with split sites in Milton Keynes

1. Introduction

1.1 The split site funding remains one area of the formula still entirely within LA control. The purpose of this factor is to reflect that schools operating over more than one site are likely to have additional costs (for example in terms of reception staff and travel between sites).

2. Criteria

2.1 A lump sum allocation will be payable to schools operating on a split site of more than 500 metres apart and are separated by a public highway. The split site allocation will be 75% of the lump sum unless the school is designated a large school where the allocation shall be 50% of the lump sum. A large primary school is defined as having capacity for 420 pupils on each site and a large secondary school at least 750 11-16 pupils on each site.
