

# Milton Keynes Admiral Nurse Team

Supporting carers and families of those with dementia in Milton Keynes. Our Admiral Nurses can help you to navigate the local support and services available. Working together to create a dementia friendly city.

## What is an Admiral Nurse?

Admiral nurses are specialist dementia nurses.

Continually supported and developed by Dementia UK, we provide life-changing support for families affected by all forms of the disease – including Alzheimer's disease.

As dementia specialists. Admiral nurses help families manage complex needs – considering the person living with dementia and the people around them – and they can advise other healthcare professionals.

For families affected by dementia. Admiral Nurse scan be a lifeline.

## What we do

Milton Keynes Admiral Nurses are here when people need help. They have the time to listen and the knowledge to solve problems. When people are struggling, our nurses help them take back control.

We work with the carers who are providing a significant level of care for a person living with dementia who resides in the Milton Keynes locality.

Once a referral has been made, we will contact the carer to complete a triage assessment. If ongoing support is required, we will work with the carer to complete a holistic assessment and use this to co-author a personalised support plan.

## Information you will need to make a referral

- consent from the care to work with us
- family/carer details
- person living with dementia details
- reason for the referral
- summary of care needs and the support required
- who is involved with providing their care/support including any professional involvement
- identified risks for carer and person with dementia

Please note we are not an urgent crisis intervention team. In an crisis situation, please refer to the urgent appropriate service i.e. GP, Mental Health Service, Primary or Social care.

## To make a referral:

Call the Access Team on 01908 253772 to request support.
