-  Milton Keynes Administrative Area
-  Critical Drainage Catchments

**Milton Keynes City Council  
Level 1 SFRA - Appendix P  
Critical Drainage Catchments**

**Notes**

The Surface Water Management Plan (2016) identified Critical Drainage Catchments. These represent areas or catchments across the administrative area of significant flood risk, characterised by the amount of surface runoff that drains into the area, the topography and hydraulic conditions of the pathway (e.g. sewer, river system), and the receptors (people, properties and infrastructure) that may be affected.
