

Hello, my name is Tehseen Noyan, I am a house prefect in the Milton Keynes Academy, and I am passionate about building opportunities and strengthen a positive environment where everyone in Milton Keynes may stretch their hands to grasp the stars within reach. I want to join the Milton Keynes Youth Council to make a permanent difference, ensuring that everyone—no matter their background or sexuality—can live a fulfilling life.

My experience reflects my dedication to personal growth and my community improvements. As a house prefect at The Milton Keynes Academy, I have proven my devotion to leadership, responsibility, aspiration, and supporting my peers. My involvement in extracurricular clubs, including the school chess tournaments and the S.T.E.M trip to Leicester's National Space Centre, where I and my team even rivalled against the university students, has developed my skills in teamwork, abstract thinking, strategic planning, and logical thinking. These are important qualities I will bring to the Youth Council.

Throughout these experiences, I have also learned the importance of Inclusivity and equal opportunities. I want to address the issues ongoing in Milton Keynes, such as:

1. Limited youth resources: Making more accessible programs and safe spaces for young people to find their interests and develop skills
2. Environmental awareness: Encouraging sustainable approaches in school and communities, like create campaigns for clean-up events, and recycling challenges
3. Mental health support: Expanding mental health support for young people that need to talk to someone in tough times
4. Public transport concerns: Make public transport more affordable, reliable, and available

My determination to excel is reflected in everything I do, such as achieving top ranks in school events and winning competitions. However, my goal is not just for personal success but to help others around me. I want to offer people opportunities to achieve more than they ever thought possible.

As a Youth Councilor, I will listen to the voices of my peers and students all around Milton Keynes and act on the challenges they face. I believe that insignificant changes in our community can make a significant difference whether that may be through generosity, education, or shared effort, and I am ready commit my time and resources to help Milton Keynes grow into a place where every young person feels valued and heard.

Together, we can achieve higher than ever before. Let us build a brighter future for Milton Keynes.

Tehseen Noyan
