Paragraph		
Compliance Comment		
<p>The traffic southbound on the A5 is already overwhelmed with the sheer numbers involved, Hockliffe already gets mile long tail backs due to the inadequate traffic light junction in the village which can delay traffic by 20 to 30 minutes at peak times. Adding further housing to the area without addressing the currently overburdened village will only make things substantially worse. Until a clear solution, such as a Hockliffe bypass is presented, the infrastructure of the area will not be able to handle the addition of over 1000 houses. They will be better built around areas closer to the M1 that can handle the higher population growth.</p>		
Modification Comment		
<p>Road systems around the area, and on the main artery road of the A5 needs to be significantly improved before any more expansion around Kelly's kitchen is suitable. Any further population growth in this area will make it unbearable for the smaller villages on the way south, and make already pressured traffic around the Kelly's Kitchen roundabout worse.</p>
