Dear Sirs,

I have read the WPC response and fully support their objection. to develop housing etc. on this site would be the destruction of the view of the Whaddon chase valley and would be detrimental to the setting of the historical Whaddon Hall and its surroundings.

I also agree with the planning Inspector at the Local Plan Public Enquiry in 2004, who firmly rejected this same site and correctly recommended that development to the East of the City, where the landscape is not so attractive, would be a more preferable alternative.

Once you breach the Shenley Ridge, which forms a natural and strong physical boundary to MK along this south-western edge of the City; irreparable damage will be done to the Whaddon/Nash Valley, which in turn will set a hugely damaging precedent for even more housing to be constructed in the longer term.

yours sincerely,

John Robinson
